# CONDITION OF THE MARKETS

During the Entire Day Chicago Wheat Was Dull and Within Narrow Margins.

"Bulls" and "Bears" Watching Each Other, One Fearing the Big Crop at Home and T'other Afraid of the Foreign Situation.

#### MONEY, STOCKS AND BONDS.

The Late Prevailing Condition of Duliness Still the Feature on 'Change.

NEW YORK, July 13 .- Money on call was easy, ranging from 11g to 2 per cent., the last loan being made at 212, closing at

Prime mercantile paper, 512@7 per cent. Sterling exchange was dull and easier at \$4.85 for sixty-day bills and \$4.87 for | ive, lower and weak. No. 2 red, \$1.003-0 demand.

The total sales of stocks to-day were 103,-003 shares, including the following: Atchison, 15,130; Louisville & Nashville, 6,705; Chicago Gas, 3,790; St. Paul, 21,275.

The opening of the new week brought no change to the stock market from its late condition of dullness and stagnation in business, but there was still a firm tone, and the slight advantage gained last week was stubbornly held, and in some cases improved. The renewed prominence of the Grangers, and especially St. Paul, Burlington and Atchison, was one of the proofs of this attitude, and the stubborn strength shown by all of them in the face of the bearish attacks by the traders, gave tone to the entire market, though few other shares were the dealings of any importance whatever. The most clearly by the transactions of the day, the movements being entirely of a professional making and spasmodic in their character, while confined to a very few stocks and limited in their effects. The opening was steady, though was down 38 per cent. The trading was enlivened during the first hour by the covering of "shorts" in St. Paul, Burlington and Atchison, while some buying of C., C., C. & St. Louis brought that stock again to the front, though it was unable to retain of its advance. Realizing on advance set in toward noon and everything reacted, the downward movement being helped by rumors of further gold shipments, which evidently had their origin in "bear" sources, but the prices of the forenoon were not maintained, and the early gains were in most cases neutralized. St. Paul and Louisville were the most prominent in the afternoon drive, but the only stock which showed any real weakness during the day was Sugar, which late in the day fell off rapidly with some animation. The market, how-ever, remained devoid of any special feature, and finally closed very dull and steady at insignificant changes for the day. Sugar lost 11g per cent., but all other changes were for the smallest fractions.

The demand for railroad bonds was rather more urgent, and the trading for the day reached \$705,000, with the Atchison issues and Oregon Improvement fives leading in the dealings. Like stocks, however, there was no pronounced tone in the market, and the changes were confined to the smallest fractions in all cases. The changes for the day are therefore without significance. Government bonds were dull and steady.

State bonds were entirely neglected, Closing quotations were:

### TRADING AT CHICAGO.

Wheat Held Near to the Opening Until Ten Minutes Before the Close. CHICAGO, July 13.-The dullness in everything dealt in on the Board of Trade apparent on Saturday continued to-day. The cutside public, as usual when values are declining, is holding aloof, the brilliant crop prospects serve to discourage "bull" investments, and the "bears" have their eyes turned towards Russia and India. where much damage is reported, and do not dare to enter upon an aggressive campaign. Wheat opened dull, weak and lower, and there was not life enough in it to however, and but for purchases by Pardridge and others to cover "shorts" it would doubtless have gone lower. The weather map showed favorable conditions for the winter-wheat harvest, with heavy receipts of an excellent quality of new wheat at all winter-wheat markets. Receipts of wheat here were 305 cars, of which 278 cars were contract. Toledo received 233 cars, with 210 of them contract. St. Louis got 111,000 bushels and Muneapolis reported 283 cars. English markets were reported one penny off. The free arrivals, with a prospect of a steady increase, had a depressing effect upon most of the session. Later, however, when the returns from the visible supply points began to come in, giving indications of a big decrease, the market became a little firm, but was held in check by the large estimated receipts of 575 cars for to-morrow. In addition to Pardridge's purchases to scalp a profit on his "short," Logan & White were fair buyers, while Baxter and Baldwin sold freely. Outside of the transactions by these firms business was ex-tremely sluggish. Even the local scalpers could see no margin of profit under existing conditions, and remained quiet, while the representatives of commission houses sat dejectedly on the top step of the arena and talked in whispers of the orders which never came. The market held within a range of 88@883se till within ten minutes of the close, when it fell to 8734c, and closed

As wheat, corn started dull, weak and lower. The offerings were liberal enough, but the demand was meager. The favorable crop weather, the weakness in wheat, and the prospect of large receipts, with weak and lower cables, were the superinducing causes. It declined for a time, then on indication of colder weather, free covering by "shorts," a sharp demand for cash corn and smaller estimated receipts for tomorrow there was a sharp advance, but all of it was not held till the close. September opened at 5034c, sold to 505sc, advanced to 517sc, and closed at 5112c.

Oats were dull and steady, with fluctustions confined within a range of 3se for Sep-

Provisions were firm on the strong hog market at the yards and a good line of outside buying, and later, in sympathy with corn, September pork started 712c off, at \$10.4212, advanced to \$10.60, but receded to \$10.50, the same price as at the close on Saturday. Lard closed .0212c lower, and ribs.05c higher. The leading futures ranged

INDIANAPOLIS MARKETS.

A Summer Dullness Coming Over Most of

the Branches of Trade. INDIANAPOLIS, July 13,-In most departments the wholesale men speak of trade as dull, but no more so than may be expected in the middle of July. Several weeks or slow trade may now be looked for, unless it be with the produce men and the grocers. The produce men are having a busy time, but fruit and vegetables are becoming so abundant that prices are weakening, and with this their profits in handling the goods fall off. The week starts off, however, with a firm poultry and egg market. There is an active demand for good butter. For apples and peaches prices rule low, as there is no strictly first-class fruit on the market. There are still a few black and red raspberries coming in, and some of the finest blackberries ever offered on this market. New potatoes and cabbage are lower. Lemons scarce and high. Oranges-but few on the market and but few wanted. The wool market is weak. Those who disposed of their clips in the early part of the season did wisely, as the market is now dull. The hide market is still under a cloud. The flour market is taking better shape. In provisions there is a good distribution in progress for this sea-son of the year. The seed market is more active at unchanged prices.

Wheat was a little off to-day, No. 2 red dropping to 84c. Corn was a shade stronger, some grades advancing 12c. Oats are in good request, ruling steady at the prices of Saturday last. Track bids on the several cereals to-day ruled as follows:

Lock Haven (Pa.) Democrat. Under the eaves of the Schroeder building there is a bird box which is inhabited by sparrows. This morning the birds coolly and deliberately hanged one of their number for some offense, suspending it by the neck until death ensued. The birds then tried to cut their dead companion down, and picked its neck in their efforts to do so until it was much mutilated. They failed to accomplish their object, however, and the body was removed by one of the spectators. The birds had a thread around the culprit's neck and he was executed in first-class style, hanging down several inches below the bird box. This is a true
